-  ASTM 5338 compostable Standards
-  Green2Technology
-  Will not break down when exposed to moisture
-  Will not break down in high temperatures
-  Leaves a smaller carbon footprint than al-

Teaming up with Piedmont Biofuels!

Piedmont Biofuels has focused on small scale biodiesel productions. Their expertise lies in small reactor design for making fuel out of waste vegetable oil.

Piedmont Biofuels will collect all of the oil from WSFCS cafeteria's to make biodiesel, a cleaner burning renewable fuel.

Increased awareness for Recycling in our cafeterias!

We are pushing to make our employees and students become more aware of how they can help our environment by recycling.
